

FOOD FOR THE POOR OF CANADA
Saving Lives... Transforming Communities... Renewing Hope

LONG TERM PARTNERSHIP

Monthly Donations

Your monthly gift will ensure children and their families are provided with food, clean water and healthcare. When children and their families are healthy, they are able to focus on other necessities such as education and livelihood.

Designate Your Donation

You can make a general donation or designate a specific area to support such as education in Jamaica, food in Haiti, disaster relief in Latin America and the Caribbean, housing or purchasing a chicken or fruit tree.

ABOUT US

Food For The Poor Canada helps build strong and prosperous communities across the Caribbean and Latin America, with a focus on Jamaica and Haiti. We respond to the most urgent needs of communities by providing food, clean water and access to healthcare. We also work with in-country partners and local leaders to strengthen communities and build social infrastructure such as schools, homes, medical clinics and income-generating projects.

Build a Village

We know that poverty is complex and multifaceted. We can build a house for a family, but they will still be hungry, without access to safe drinking water and unable to attend school. With your help, we address the many root causes of poverty to create sustainable development. We do this by our focus on education, food, housing, health and livelihoods.

Help us build a village in Haiti that will provide families with houses with water, sanitation facilities and solar lighting. While providing the community with water, street lights and livelihood projects.

*It Takes a Village...
to Build a Village!*

Shipping

*IN 2018, WE SHIPPED OVER
\$8 MILLION IN GOODS!*

We need your donations to help cover the cost of shipping containers of food, medicine and educational supplies to families in Jamaica and Haiti.

See the Impact

By supporting our shipping costs you can make a significant impact to families in need.

20' container = 375 bags of rice
375 bags = 41,250 lbs of rice
41,250 lbs rice = 165,000 meals
