

CORPORATE PARTNERSHIP

LOOKING FOR AN EPIC TEAM BUILDING EXPERIENCE? BUILD A SCHOOL TOGETHER!

Give your team a unique opportunity to build their relationships outside of the office and give back to a community in a meaningful way.

Travel to Jamaica for this one-of-a-kind engagement and spend three days building a school. Your team will be part of a movement to improve early childhood education in Jamaica.

WHAT WILL YOU DO?

Our local team will install the foundation, so that when you arrive you'll be able to assist with framing and painting. Teams build with us for three days in the morning (4 hours), as it's often too hot in the afternoon.

WHAT DOES IT COST?

Through the generosity of our donors Food For The Poor has been able to build 110 schools. We ask groups to fundraise the cost of the school which depends on the size, starting at \$100,000 USD. This funds a three to four classroom school, bathrooms, sick bay, an office and kitchen along with the fence and playground.

TAKE A LOOK!

Visit our website to learn more about our projects and watch our 10th anniversary video that will give you a better sense of our builds.
